PATRICK A. O'FLAHERTY

While primarily concerned with listing selected publications and studies related to Newfoundland and Labrador for the twelve months prior to January 1987, we have also listed in this bibliography significant publications, from 1980 on, which were not included in our previous bibliographies. For bibliographical information about articles published in *Newfoundland Studies*, see the annual index published in the Fall number.

We are grateful to those subscribers, colleagues and friends who called to our attention publications of which we might otherwise have been unaware. We welcome their continued support.
